SYSTEM

CLOG-FREE RAIN GUTTER PROTECTION

BEST COVERAGE

Alu-Rex gutter guards optimize the natural debris-cleaning power of wind to keep your gutters working properly at all times. Leaves, debris, snow and ice remain on top of the product, leaving rain gutters functional at all times. The only product on the market that comes with a 25-year clog-free warranty.

PREVENTS LEAKS

A gutter that's clogged by debris, snow or ice will rapidly fill up with water, which will eventually leak into your roof and foundation or ruin your flowerbeds. With the Gutter Clean System, your gutters keep doing their job, even during summer downpours and winter thaws.

PROFESSIONALLY INSTALLED

The Gutter Clean System is the product of meticulous industrial design. The optimized perforations size, product shape and durable sealing joint are the result of years of work developing gutter guards.
