CONTINUOUS HANGER™
FOR RAIN GUTTERS

IN NORTH AMERICA,
600,000 FALLS FROM
LADDERS

A black and white photograph showing the edge of a roof with a gutter. The roof is covered in dark shingles, and the gutter is a light-colored metal. The background is a plain, light-colored wall.

CAUSE **300** **DEATHS,**
ON AVERAGE,
PER YEAR

COMPLICATIONS RELATED TO GUTTERS

DEAD BIRDS AND PESTS

Nobody likes these bad surprises when cleaning their gutters.

WARPED RAIN GUTTERS

The gutter becomes deformed under the weight of snow and ice.

ROTTED FASCIA BOARDS

Rotted fascia can no longer support the weight of the gutters.

YOU HAVE **BETTER THINGS TO DO** THAN CLEANING GUTTERS

CONIFER NEEDLES

No doubt the worst enemy of your gutters and downspouts.

GRAVEL AND SHINGLES

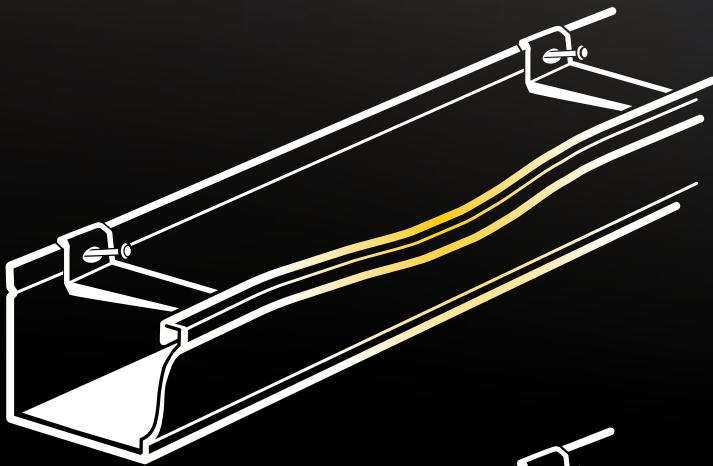

It is common to have to use a shovel to remove big debris.

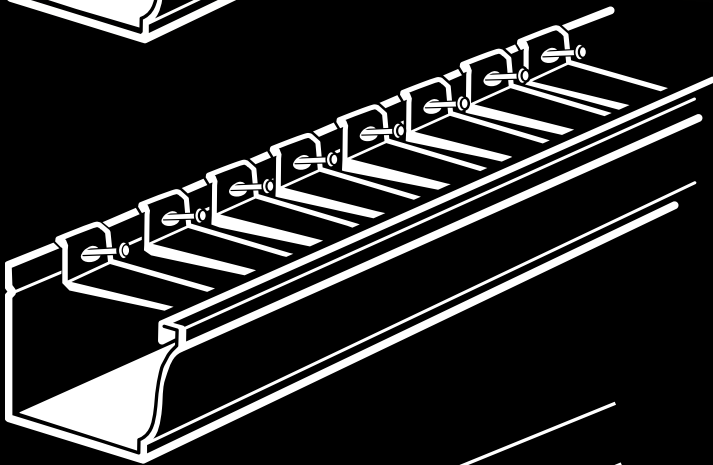

BASEBALL

Risking your life on a ladder to get the kid's toys, a classic.

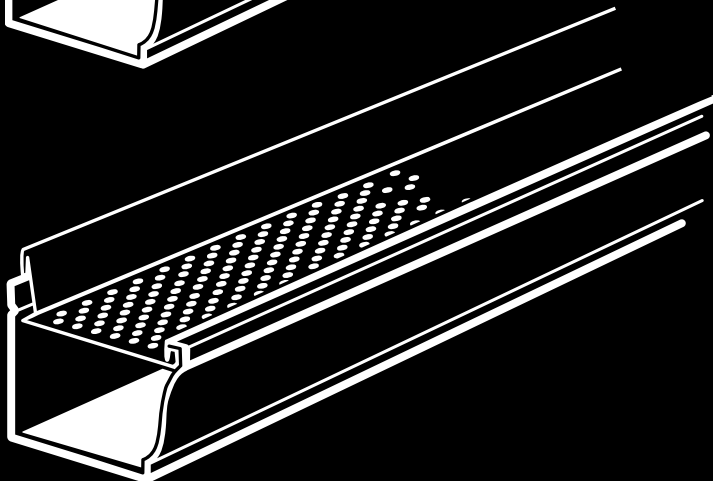

CONTINUOUS HANGERS™: EXPLAINED

Rain gutters are commonly installed with spaced hangers that cause weak spots on the gutter between each hanger.

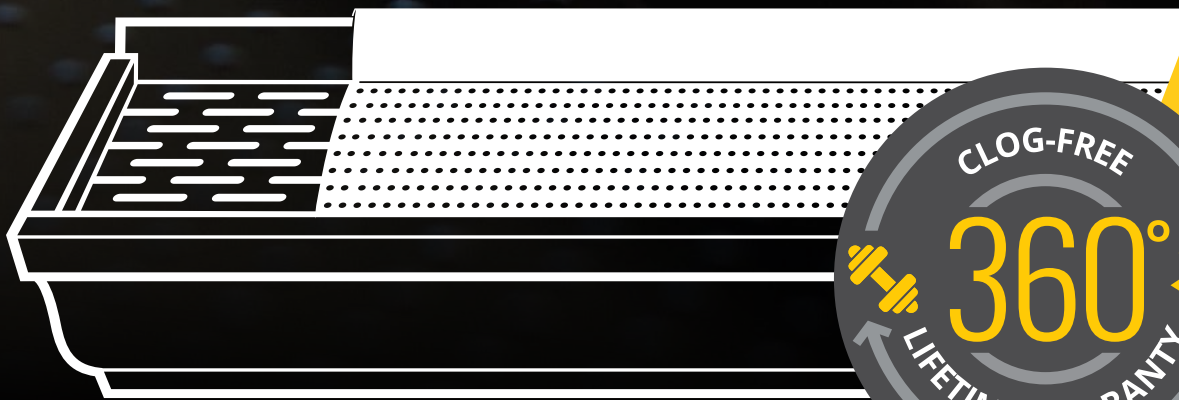

To avoid weak spots, hundreds of hangers would need to be added, but this is not a very efficient practice.

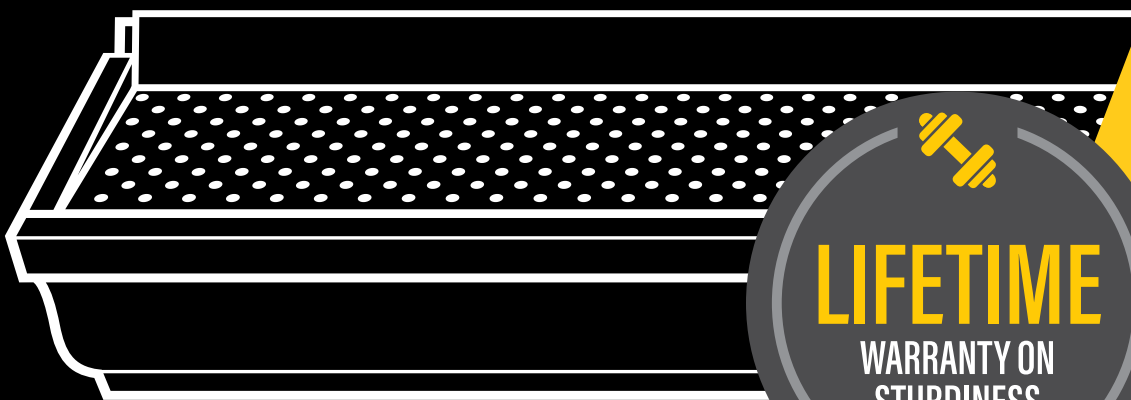

With a **continuous hanger™**, the rain gutters are reinforced along their entire length.

THE RIGHT CONTINUOUS HANGER™ FOR EACH JOB

double  pro®

t♦rex®

Reinforced from end to end. There are no weak points. It can even hold the weight of three people.

Rain gutters flow freely for perfect drainage year-round.

SEE THE **BENEFITS**

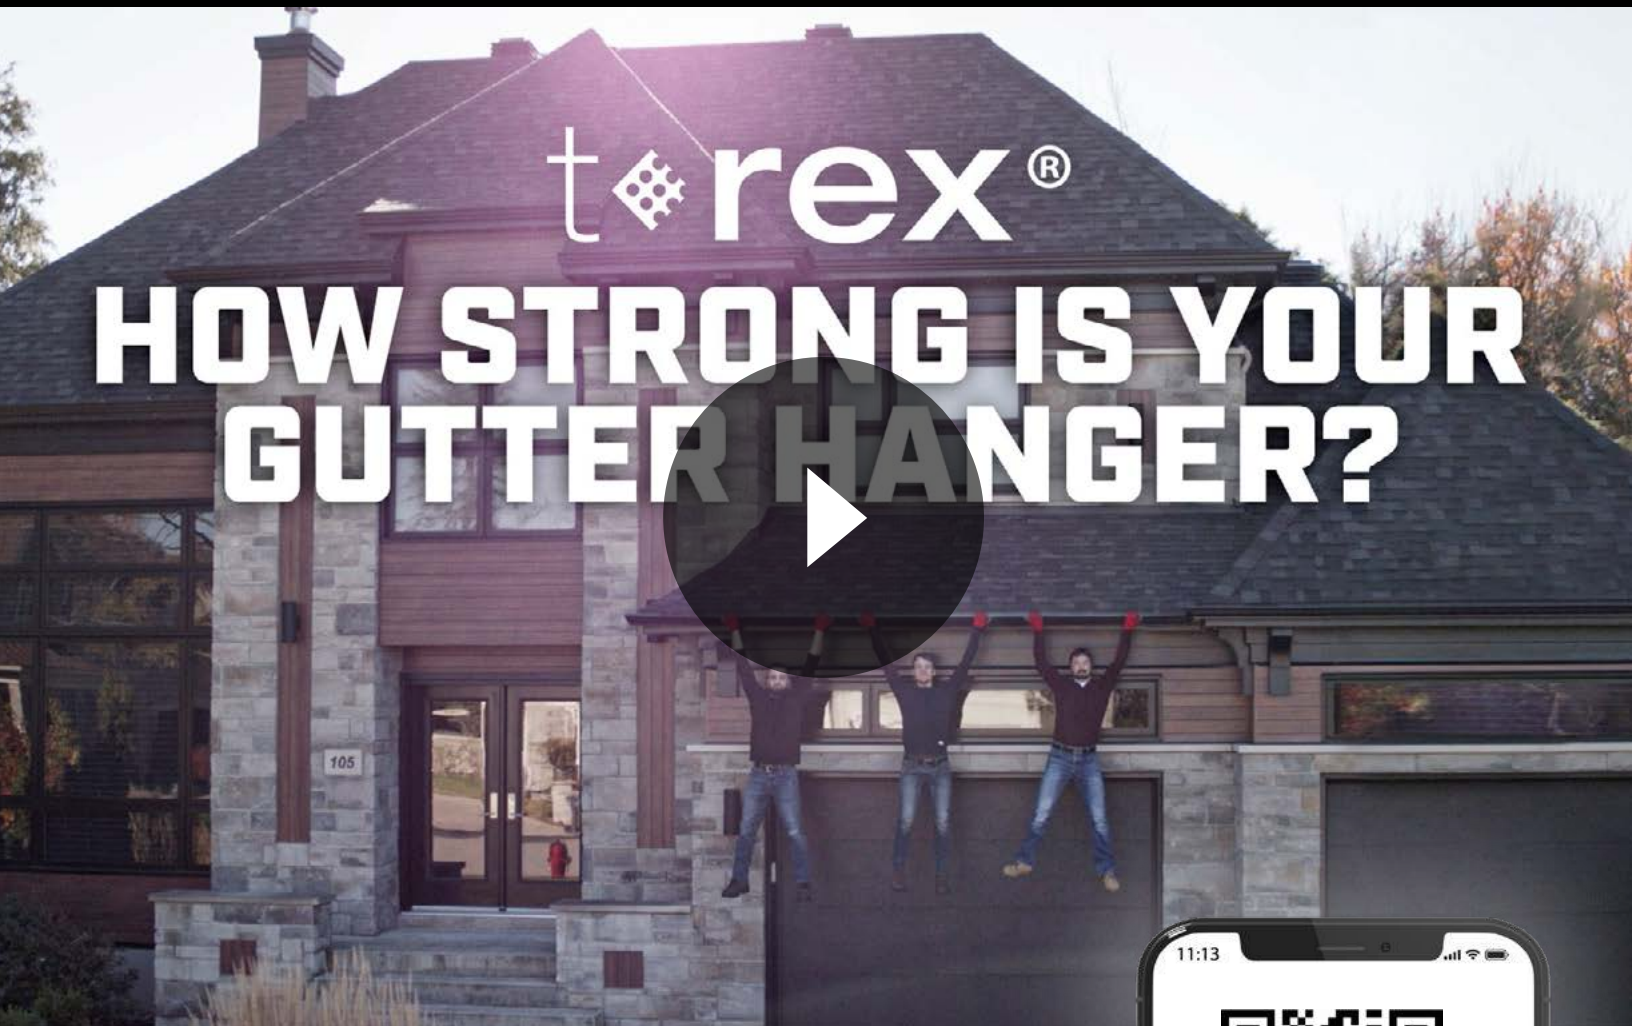

Acts as uv shade protecting the sealant from direct sunlight and eliminating corner leaks.

Keeps leaves and debris out of rain gutters.

**HOW STRONG IS YOUR
GUTTER HANGER?**

double  pro®

CONTINUOUS HANGER™
WITH BUILT-IN GUTTER GUARD

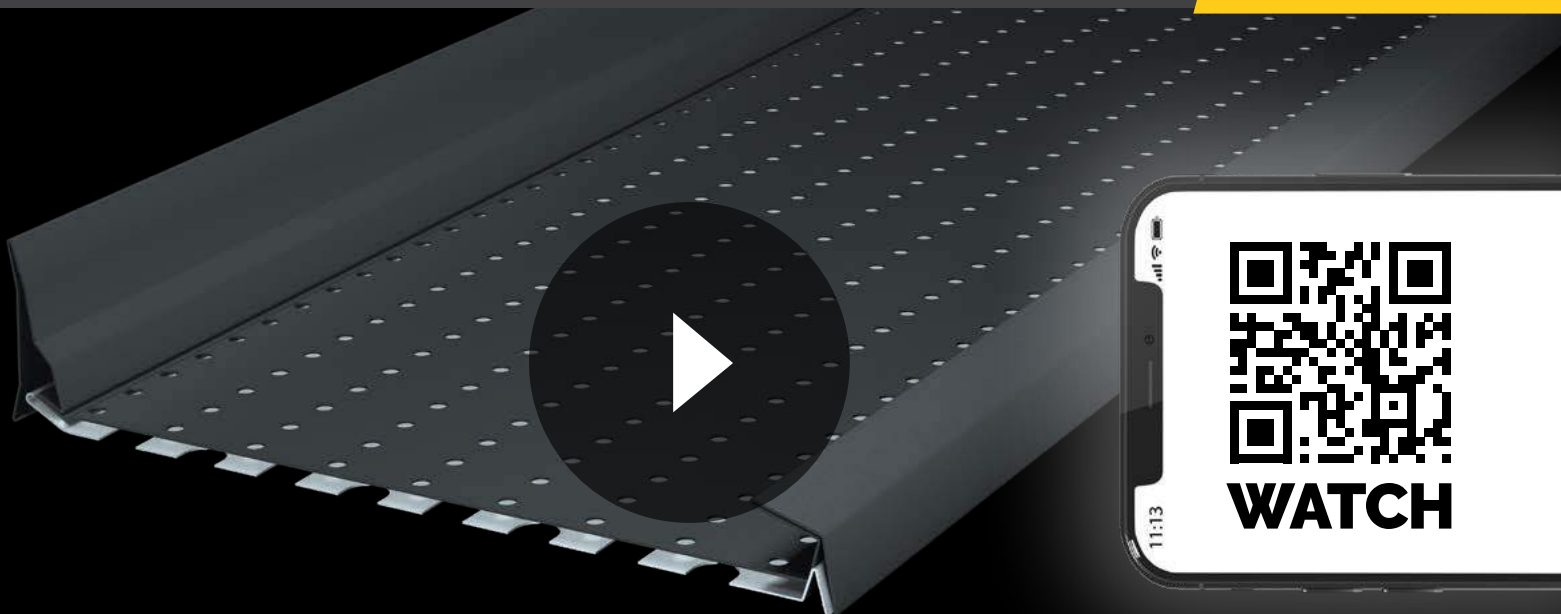

DoublePro is a dual-action gutter protection system. It is built to stand up to the worst weather conditions in North America and keep your gutter free of ice and debris year after year.

MOST EXTENSIVE WARRANTY **IN THE INDUSTRY**

360° LIFETIME WARRANTY

Alu-Rex's flagship product is covered by the most extensive warranty in the industry: a lifetime warranty on materials, durability, and clog-free performance. DoublePro is the only gutter guard whose clog-free warranty covers pine areas.

CUTTING EDGE TECHNOLOGY

vortex™ TECHNOLOGY

The suction created by the two membranes makes it possible to drain three times more water than ever recorded in the heaviest storms. The inner membrane draws water through the wider holes.

eclipse™ TECHNOLOGY

The double membrane keeps debris from getting inside the gutter. The offset holes make it the perfect filter, allowing water to drain freely while blocking pine needles and leaves without ever getting clogged.

roll@back™ TECHNOLOGY

This technology sends excess rainwater back into the gutter for truly high-volume drainage capabilities.

winter ❄️ shield™ TECHNOLOGY

Wintershield stops ice from building up and in the gutter, protecting it from warping caused by freeze/thaw cycles. That way, water flows through the gutter rather than into your home.
