x.xxx" = +/- 0.005" (0.127 mm)
x.xxxx" = +/- 0.0005" (0.0127 mm)

### 6" GUTTER PROFILE

### PROFILE

### SCREWS

- This hanger is installed with self-sealing screws made of zinc #10 -1½" (38 mm) with ¼" (6.4 mm) hexagon heads and integrated rubber gaskets.
- Reinforces the gutter so it will stay in place year after year without needing to be removed or replaced.
- Reduces the risk of water seeping into the fascia.
